<b>Notification of Non-Compliant Appeal Brief</b> <b>(37 CFR 41.37)</b>	<b>Application No.</b> 10/070,091	<b>Applicant(s)</b> WOLRICH ET AL.	
	<b>Examiner</b> Daniel Pan	<b>Art Unit</b> 2183	

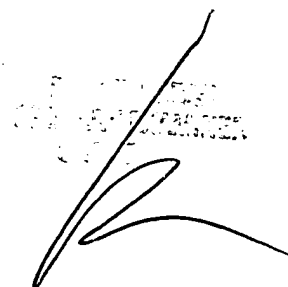

**--The MAILING DATE of this communication appears on the cover sheet with the correspondence address--**

The Appeal Brief filed on 28 September 2007 is defective for failure to comply with one or more provisions of 37 CFR 41.37.

To avoid dismissal of the appeal, applicant must file an amended brief or other appropriate correction (see MPEP 1205.03) within **ONE MONTH or THIRTY DAYS** from the mailing date of this Notification, whichever is longer.  
**EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136.**

1. ☐ The brief does not contain the items required under 37 CFR 41.37(c), or the items are not under the proper heading or in the proper order.
2. ☐ The brief does not contain a statement of the status of all claims, (e.g., rejected, allowed, withdrawn, objected to, canceled), or does not identify the appealed claims (37 CFR 41.37(c)(1)(iii)).
3. ☐ At least one amendment has been filed subsequent to the final rejection, and the brief does not contain a statement of the status of each such amendment (37 CFR 41.37(c)(1)(iv)).
4. ☒ (a) The brief does not contain a concise explanation of the subject matter defined in each of the independent claims involved in the appeal, referring to the specification by page and line number and to the drawings, if any, by reference characters; and/or (b) the brief fails to: (1) identify, for each independent claim involved in the appeal and for each dependent claim argued separately, every means plus function and step plus function under 35 U.S.C. 112, sixth paragraph, and/or (2) set forth the structure, material, or acts described in the specification as corresponding to each claimed function with reference to the specification by page and line number, and to the drawings, if any, by reference characters (37 CFR 41.37(c)(1)(v)).
5. ☐ The brief does not contain a concise statement of each ground of rejection presented for review (37 CFR 41.37(c)(1)(vi)).
6. ☐ The brief does not present an argument under a separate heading for each ground of rejection on appeal (37 CFR 41.37(c)(1)(vii)).
7. ☐ The brief does not contain a correct copy of the appealed claims as an appendix thereto (37 CFR 41.37(c)(1)(viii)).
8. ☐ The brief does not contain copies of the evidence submitted under 37 CFR 1.130, 1.131, or 1.132 or of any other evidence entered by the examiner **and relied upon by appellant in the appeal**, along with a statement setting forth where in the record that evidence was entered by the examiner, as an appendix thereto (37 CFR 41.37(c)(1)(ix)).
9. ☐ The brief does not contain copies of the decisions rendered by a court or the Board in the proceeding identified in the Related Appeals and Interferences section of the brief as an appendix thereto (37 CFR 41.37(c)(1)(x)).
10. ☒ Other (including any explanation in support of the above items):

See Continuation Sheet.

Continuation of 10. Other (including any explanation in support of the above items): Continuation of 10. Other (including any explanation in support of the above items): Upon review, the explanation is not concise. Although the Brief shows figure and page numbers in the specification, no concise explanation of the subject matter defined in the independent claims can be found. Appellant included detailed figures and the text portions of the specification in the Brief, but they are not concise. Applicant is reminded that the subject matter of each independent claim needs to be concisely explained for a number of reasons. For example, if the Board decides that a rejection is to be reversed for a given independent claim, the remaining independent claims must be reviewed to determine if the reasons for reversing the rejection of the first independent claim apply to the remaining independent claims. Furthermore, if appellant chooses to argue a group of claims which includes more than one independent claim, the Board will need to review, at the least, each independent claim to determine which claim will be selected as representative of the group. Apart from reviewing the examiner's adverse decision on patentability, the Board may also make new grounds of rejection pursuant to former § 1.196(b) (2003) or make an explicit statement that a claim would be allowable if amended under former § 1.196(c) (2003). The concise explanation of the subject matter of each independent claim will aid the Board in making these determinations (see Federal Register/Vol. 69, No. 155/Thur, Aug. 12, 2004/Rules and Regulations, 37 C.F. R. 41.37(c)(1)(v)). A compliant brief has to be filed by appellant in order to initiate the appeal conference and avoid likely remand by Board of Appeals and Interferences.
